متن را به دقت بخوانید و به سوالات پاسخ دهید

Birds do not fly high up in the sky. The air is too thin. It is hard for birds to breathe in thin air and thin air does not hold them up. Birds fly near the ground so that they can see where they are. The birds look for places they know. Then they do not get lost. Some birds fly so low over the oceans that the waves often hide them. Many birds fly long distances in the spring and autumn.
